

Don't be fooled. Proposition 49 WILL NOT GET BIG MONEY out of politics. In fact, the politicians who support Prop 49 OPPOSED a voter sponsored ban on corporate contributions just two years ago.

Here is what you are being asked to say you agree with:

"Congress should change the FIRST AMENDMENT."

Do you really trust the politicians in Washington to change the First Amendment?

Don't be fooled!

Proposition 49 is a taxpayer-funded political campaign from Sacramento special interest groups. They want to limit freedom of speech just because they don't agree with it. And voting for this proposition WON'T CHANGE THE LAW.

Proposition 49 is a waste of your tax dollars because it WILL NOT change the law. Even Governor Jerry Brown says your vote on this proposition will have "no legal effect whatsoever."

Governor Brown REFUSED to sign Proposition 49 into law. He said that "we should not make it a habit to clutter our ballots with nonbinding measures as citizens rightfully assume that their votes are meant to have legal effect."

SAY NO to using the people's ballot for political games. Tell special interests to STOP WASTING your TIME AND MONEY.

VOTE NO ON PROPOSITION 49!

Brian Jones
